The Ventnor Exchange is launching the first ever Isle of Wight Young Artist Award. A panel of industry professionals will be helping to decide a shortlist of people who will be given the opportunity to have their own work exhibited for the public at The Ventnor Exchange. The six week exhibition will take place on the 19th of February where the winner will be announced. This competition is open to 14-25 year olds. There is no set theme so you have complete creative freedom, this is an opportunity to showcase your skills as an artist. Your artwork can be submitted in any medium such as: photography, graphic design, painting etc as long as it is able to be hung up on a wall and we hope to see some of our TIFS students work in the exhibition.

The Lego League Challenge is a challenge by First to encourage 9-16 year olds to do STEM through Lego, where younger people learn about scientific advancements and real-world challenges. The challenge runs from August, and is hosted from around the world with more than 35,000 teams each year.

You can find out more here: <https://www.firstlegoleague.org>.

Salve hope for you to join in too!

## Year 7 R.E day:

Salve interviewed Cian and Oli from Rubeum and Viridis respectively, and asked about the valuable experiences that they had during the most recent R.E day. The day was full of educational opportunities to enrich their knowledge on the culture and practices of Islam and allowed students to have an insight into a world they would otherwise be unfamiliar with. R.E days are invaluable for ensuring all people feel welcome and accepted in the TIFS community.
